FLOWERING CRABS

FAST BECOMING AMERICA'S FAVORITE ORNAMENTAL TREE! Make these your sales leader—They will build repeat business and return an excellent profit for you at the same time!

Flowering Crabs are the finest of ornamental trees. Outstanding showy trees! Brilliant in bloom—contrasty in foliage—bearing fruit ranging in color from green thru yellow and bronze to red and purple! Breath-taking contrasts for SPRING, SUMMER, FALL! Very hardy and free from disease making medium to small size trees ideal for the modern lawn and as street trees.

Group 1 Varieties

ALDENHAMENSIS:

Purplish red flowers. Semi-Double (5-11 petals) purplish red fruit. Reddish bronze foliage. Vigorous.

DOLGO:

Single white flowers—Very hardy—Red fruit—Most popular jelly crab.

ELEYI—PURPUREA ELEYI:

Reddish purple foliage in spring. Single deep pink blossoms. Showy Red Fruit.

HOPA:

A mass of crimson buds in April opening to rose colored blossoms, followed by attractive bronzy red foliage. Later the tree sparkles with small bright red apples—red clear thru—that make wonderful jelly and beautiful spiced crab apples. Tree an upright grower, easy to grow and perfectly hardy anywhere. OUR BEST SELLER!

NIEDZWETZKYANA—REDVEIN CRAB

A hardy, large growing variety. Outstanding large red flowers in April. Mature leaves tinged red. Fruit big and purplish red. Bark also reddish.

RED SILVER:

Crimson flowers, rich maroon red fruit. Foliage semi-cutleaf with silver and red coloring making a remarkably beautiful combination.

SCHUDECKERI:

Flowers pale pink and semi-double. Fruit yellow. Foliage rich green. Bark green. Good grower.

25 Plants Take 100 Rate. For less than 10 plants of a size add 10c per tree.

Group 2 Varieties

ALMEY:

With glistening Red Petals of large size carrying a white marking at base of each petal giving the effect of a five pointed star, ALMEY is truly the most outstanding introduction for many years. New foliage tipped with red, mature leaves large, bright green and serrated. Bark of new growth reddish bronze flecked with white. An excellent item to pot for cash and carry sales as it USUALLY BLOOMS THE FIRST YEAR PLANTED! The Scarlet fruits are retained till spring, furnishing winter color and food for winter birds.

COWICHAN:

Foliage brilliantly colored in fall. Fruit spectrum red good for jelly. Flowers single, purplish red. Very early bloomer. Tree a vigorous grower.

FLORABUNDA:

Japanese flowering crab. Flowers open pink fade to white. A heavy bloomer. Still one of the best.

KLEHM'S BECHTEL

An improved form of the very double Bechtel. Rich pink color. Green leaves and fruit.

MAKAMIC:

Purplish-red flowers. Fruit red. Foliage reddish-green to bronze. Dr. Wyman considers it the best of all rosy bloom crabapples.

TOMIKO:

purple foliage. Deep color all summer. Very Hardy. Lavender flowers.

NIKKO BLUE HYDRANGEA—

The most beautiful hardy blue hydrangea. Nikko Blue is hardy—having withstood 20° below zero. The tops die down annually but give them a little mulch protection and here they come next spring growing into bushy shrubs 2 to 4 feet tall with luxuriant foliage and tremendous masses of flowers. The flowers are borne on new wood annually. What a show to see this shrub covered with a mass of blooms some of which measure a foot across! Blooms pink in alkaline or sweet soil; blooms blue in acid or sour soil. To change alkaline soil to acid treat with aluminum sulphate—two tablespoons mixed in a gallon of water.

Used for foundation specimens, single lawn accent plants, shrub borders or for planting in tubs or flower boxes. A wonderful container item.

HYPERICUM HIDCOTE—Another New Item!

Large, Golden yellow, cup shaped waxy blooms make this new hypericum a real show piece. This is a much improved type of Moserianum being more dwarf, hardier, and a stronger more prostate grower. Highly attractive foliage—easy to grow—should be a natural in cans blooming during the summer.

Flowering Dogwood

Has long been known for its great beauty and has become a much planted tree by individuals, cities, civic groups, etc. Cultivated in America since 1731, it is now used from Michigan to California.

Exotic blooms before leaves appear in Spring, luxuriant green foliage all summer turning bright scarlet in fall, bright red berries in fall and early winter, plus an interesting branching habit makes the flowering Dogwood one of America's most handsome trees with a special interest for every season of the year. No wonder it is "America's Favorite Flowering Tree." All Bareroot Dogwood packed with polyethylene plastic.

Cherokee Chief^(R)

Red Flowering Dogwood

Cornus Florida Cherokee Chief—once in a great while, the wonderful workings of nature produce a truly outstanding plant possessing the good traits of its parents and further endowed with beauty and merit far beyond its predecessors. Such a plant is "Cherokee Chief"—A truly red-red flowering Dogwood with excellent growth and outstanding foliage characteristics.

This variety of Dogwood tree is a patented variety covered by U. S. Plant Patent #1710 and is being grown under license from the patent owner. "Cherokee Chief" is the registered trademark of the owners.

Schedule of BAREROOT Prices

• BLOOMS A BEAUTIFUL DEEP RED

A clean rich ruby red that holds up throughout blooming periods.

• NEW GROWTH A BRIGHT RED

In spring and early summer the new growth is a bright red, much deeper than ordinary, reflecting the deeper color of the blossoms. Fall coloring is bright scarlet shading to green.

• EXCELLENT GROWER

A strong clean grower with dominant leader and uniform branching habits.
